

Application of the *Quality Management System* in Official Statistics

Statistical Work Quality Assessment Questionnaire (2017)

Dear Directors of the Censuses;

Greetings,,,

This questionnaire aims to evaluate the quality of statistical work in various censuses implemented by the *Department of Statistics* (DoS) in view of the utmost importance of the obtained data in planning for the development programs of the decision makers. Therefore, this questionnaire has been prepared and designed in line with international standards, recommendations and best practices and the Jordanian Official Statistical Practices Charter in accordance with the need to focus on quality control in statistical data production.
