

Application of the *Quality Management System* in Official Statistics

Statistical Work Quality Assessment Questionnaire (2017)

Dear Directors of the Surveys and Studies;

Greetings,,,

This questionnaire aims to evaluate the quality of statistical work in various surveys and studies conducted by the *Department of Statistics* (DoS) in view of the importance of the obtained data in planning for the development programs managed by the decision makers. Therefore, this questionnaire has been prepared and designed in line with international standards, recommendations and best practices and the Jordanian Official Statistical Practices Charter in accordance with the need to focus on quality control in statistical data production.
