Department of Statistics: Industrial Production Index increased by 3.41% for September 2024

The Department of Statistics issued its monthly report on the Industrial Production Index (IPI), which recorded an increase by 3.41% in September 2024 compared to the same month in 2023, and a decrease by (1.17%) compared to August 2024. On the accumulative level for the first nine months of 2024, the IPI has increased by 0.48% compared to the same period in 2023, noting that the base year has been modified to become (2018=100) instead of (2010=100).

Accordingly, the IPI in September 2024 has reached 89.83 percentage points against 86.87 compared to the same period in 2023, and 90.89 in August 2024. At the accumulative level for the first nine months of 2024, the IPI has reached 87.63 compared to 87.22 for the same period in 2023.

In terms of monthly change, the IPI of September 2024 has increased compared to the same month of 2023 due to the increase in the production quantities of the “Manufacturing Industries” by 3.35% with a relative importance of 88.7%, “Quarrying Industries” sector by 7.46%, with a relative importance of 5.4%, and the production quantities of the “Electricity” sector by 0.71% with a relative importance of 5.9%.

At the sectoral level, comparing the index of September 2024 with August 2024, the production quantities of the “Manufacturing Industries” were slightly increased by 0.01% (less than one percentage point) with a relative importance of 88.7%. Besides, there were decreases in the production quantities of “Quarrying Industries” by (4.47%) with a relative importance of 5.4%, and the production quantities of “Electricity” by (14.63%) with a relative importance of 5.9%.

Comparing the accumulative index for the first nine months of 2024 with the same period in 2023, the production quantities of “Manufacturing Industries” have declined by (0.28%) with a

relative importance of 88.7%. Meanwhile, there were increases in the production quantities of the “Quarrying industries” sector by 8.34% with a relative importance of 5.4% and the quantities of “Electricity” by 5.41% with a relative importance of 5.9%.
