Industrial Production Quantities Grow in May 2026 by 0.34% Compared to May 2025

Industrial Production Quantities Increased in May 2026 by 4.68% Compared to May 2025 and Increased by 0.10% in the First Five Months of 2026

The Department of Statistics released its monthly report on the Industrial Production Index (IPI), which showed that the IPI of May 2026 had increased by 0.34% compared to the same month in 2025, and an increase by 4.68% compared to April 2026. On the cumulative level, the IPI of the first five months of 2026 had increased by 0.10% compared to the same period in 2025.

Figure (1): Monthly Industrial Production Index for the years 2025 & 2026

Accordingly, the IPI of the first five months of 2026 had reached 87.39 against 87.31 during the same period of 2025. On a monthly basis, the IPI of May 2026 reached 88.34 percentage points against 88.04 in May 2025. Also, the IPI of May 2026 reached 88.34 against 84.39 in April 2026.

Comparing the cumulative IPI for the first five months of 2026 with the same period of 2025, the production quantities of the “*Quarrying Industries*” sector increased by 2.56%, with a relative importance of 5.4%, and the production quantities of “*Electricity*” increased by 2.58%, with a relative importance of 5.9%. Meanwhile, the production quantities of the “*Manufacturing Industries*” sector decreased by (0.20%), with a relative importance of 88.7%.

On the monthly change domain, the IPI of May 2026 increased as compared to the same month in 2025 due to a 0.94% increase in the production quantities of the “*Manufacturing Industries*” sector, with a relative importance of 88.7%. Meanwhile, there were decreases in the production quantities of the “*Quarrying Industries*” sector by (6.86%), with a relative importance of 5.4%, and the production quantities of the “*Electricity*” sector by (1.91%), with a relative importance of 5.9%.

One the sectoral level and by comparing the IPI of May 2026 with April 2026, there were increases in the production quantities of the “*Manufacturing sector*” by 5.81, with a relative importance of 88.7%, and in the “*Electricity Sector*” by 0.04%, with a relative importance of 5.9%. Meanwhile, the production quantities of “*Quarrying Industries*” had decreased by (7.92%), with a relative importance of 5.4%.
