Press Release

Department of Statistics: Industrial Production Quantities Remained Steady During the First Two Months of 2026

The Department of Statistics released its monthly report on the Industrial Production Index (IPI), which showed that the IPI of the first two months of 2026 remained steady (statistically insignificant decrease by 0.5%) compared to the same period in 2026. On a monthly basis, the IPI of February 2026 decreased by (0.72%) compared to February 2025, and by (2.19%) compared to January 2026. It should be noted that the base year was amended to (2018=100) instead of (2010=100).

Accordingly, the IPI of the first two months of 2026 had reached 87.58 against 87.62 during the same period of 2025. On a monthly basis, the IPI of February 2026 reached 86.61 percentage points against 87.24 in February 2025. Also, the IPI of February 2026 reached 86.61 against 88.55 in January 2026.

On the sub-sectors level, and by comparing the IPI of the first two months of 2026 to the same period of 2025, there were decreases in the production quantities of the “*Manufacturing Industries*” sector decreased by (0.26%), with a relative importance of 88.7%, and the production quantities of “*Electricity*” sector by (0.41%), with a relative importance of 5.9%. Meanwhile, the production quantities of the “*Quarrying Industries*” sector were increased by 4.79%, with a relative importance of 5.4%.

On a monthly basis, the IPI of February 2026 was decreased compared to February 2025. This decrease was due to a decline in production quantities in the “*Manufacturing Industries*” sector (0.27%), with a relative importance of 88.7%, and in the “*Electricity*” sector (9.84%), with a relative importance of 5.9%. Meanwhile, the production quantities of the “*Quarrying Industries*” sector were increased by 2.31%, with a relative importance of 5.4%.

At the sector level, and by comparing the IPI of February 2026 with January 2026, the production quantities of the “*Manufacturing Industries*” sector were increased by 0.03%, with a relative importance of 88.7%. Meanwhile, there were decreases in the production quantities of the “*Quarrying Industries*” sector were decreased by (15.22%), with a relative importance of 5.4%, and the “*Electricity*” sector by (20.51%), with a relative importance of 5.9%.
